MASOC (Association of Mechanical Engineering and Metalworking Industries of Latvia) was established in 1994 and operates as an informative and consultative centre and collaborative network of engineering and related companies in Latvia.

We offer:

- Gateway to the engineering industry of Latvia;
- Single contact point for potential orders and inquiries;
- Information about sector's sub-contracting and technological facilities;
- Partner search.

MASOC today unites about 165 leading companies of the sector. The main products and services offered by our companies include:

- Shipbuilding and repair;
- Manufacture and repair of trains and trams;
- Manufacture of basic metals – steel bars, iron and non-ferrous alloys;
- Welded steel structures;
- Heating systems, solutions for renewable energy, cogeneration projects;
- Equipment and machinery for ports, agriculture, food processing and woodworking;
- Electrical equipment;
- Wide range of technological equipment – vacuum coating equipment, hydraulic loaders, cylinders, rotators, lubrication stations, brakes, driving chains, etc.;
- Semi-finished goods and subcontracting services in metal processing.

MASOC maintains online database (www.masoc.lv) of technological capabilities of its members and facilitates collaboration between the member companies.
